HOW TO USE?

DIGITALL

Hemminway Editor is an easy to use tool. It allows you to check your spelling, grammar and language level to ensure that your content is accessible to your learners.

Step 1.

On the right is the main page of Hemmingway app.

You can delete the text, and copy/paste your own, or directly write in the software.

Hemingway App makes your writing bold and clear.

The app highlights lengthy, complex sentences and common errors; if you see a yellow sentence, shorten or split it. If you see a red highlight, your sentence is so dense and complicated that your readers will get lost trying to follow its meandering, splitting logic — try editing this sentence to remove the red.

You can utilize a shorter word in place of a purple one. Mouse over them for hints.

Adverbs and weakening phrases are helpfully shown in blue. Get rid of them and pick words with force, perhaps.

Phrases in green have been marked to show passive voice.

You can **format** your *text* with the toolbar.

Paste in something you're working on and edit away. Or, click the Write button and compose something new.

Step 2.

The colour codes help you adjust your settings depending on your student's level.

These standards are in accordance with the 'Easy to Read and Understand" framework of inclusion Europe (see Practical Sheet 4).

2 adverbs, meeting the goal of 2 or fewer.

1 use of passive voice, meeting the goal of 2 or fewer.

1 phrase has a simpler alternative.

1 of 11 sentences is hard to read.

1 of 11 sentences is very hard to read.

Step 3.

Lastly, you will get a 'readability grade' based on your text level.
These grades are based on an analysis of education's level for an Average American.

More accessible texts are usually between grade 4-6.
